

## — REBOX SAVES YOU MONEY, ONE BOX AT A TIME

Established in 1990, Rebox empowers more than 350 manufacturing plants to think outside the box.

### THE IMPACT

#### DID YOU KNOW...

Despite OCC price fluctuations, **Rebox** pays its partners a fixed, long-term price. This allows partners to realize constant added revenues which can be used to fund employee initiatives which serve as important motivators for plant workers.

#### The process is simple:

- 1** At the manufacturing plant, boxes are flattened and placed on pallets or in gaylords at the front or end of each line.
- 2** Full pallets or gaylords are then placed in a 'box only' trailer.
- 3** Once a call is made, Rebox facilitates a trailer swap so that its partners can continue collecting boxes.

### THE BENEFITS:

- Rebox offers you 30-40% more money for corrugate.
- You can expect to receive a check from Rebox within the same month of box pick-up.
- Rebox covers all costs and you can eliminate: transport charges, equipment rental fees, lease payments and light load charges.
- Added revenues can allow you to micro finance loans for employees, implement employee profit sharing programs and fund team-wide events.

*"Working closely with new partners, it's amazing to watch their reactions as they receive their first checks. Our payouts are always consistent and above the industry average, and that's something they really appreciate."*

*- Martin Sirois, Business Development Manager, Rebox*
