

— THINK OUTSIDE THE BOX

REBOX

Rebox partners with manufacturers and retailers to help them care for the environment, become more efficient and save money.

ENVIRONMENTAL BENEFITS

Currently, REBOX has

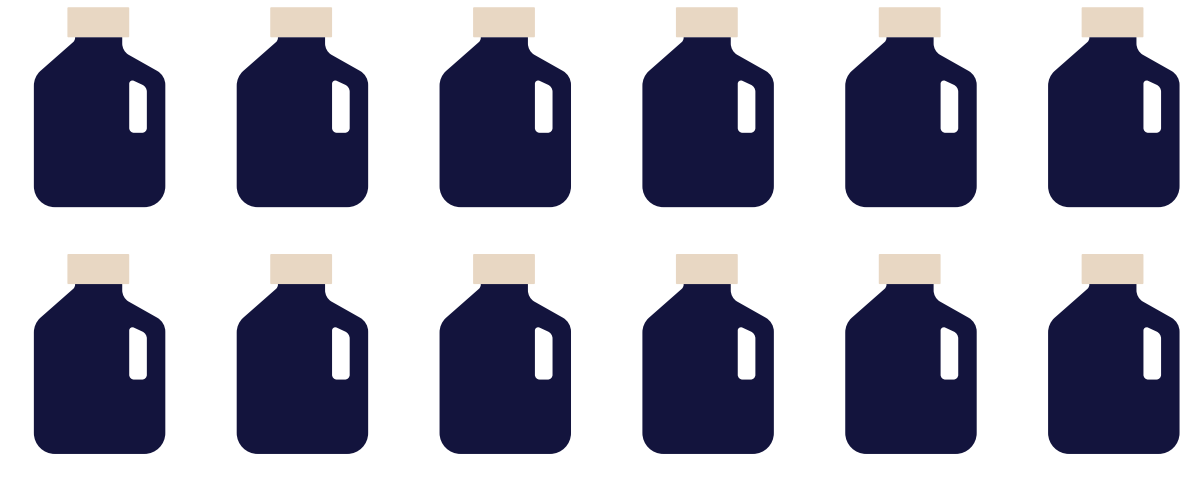

across **North America** which are strategically placed to **reduce the carbon footprint** of corrugate transportation.

REBOX SAVES

530 million

INDIRECT GALLONS OF WATER A YEAR.

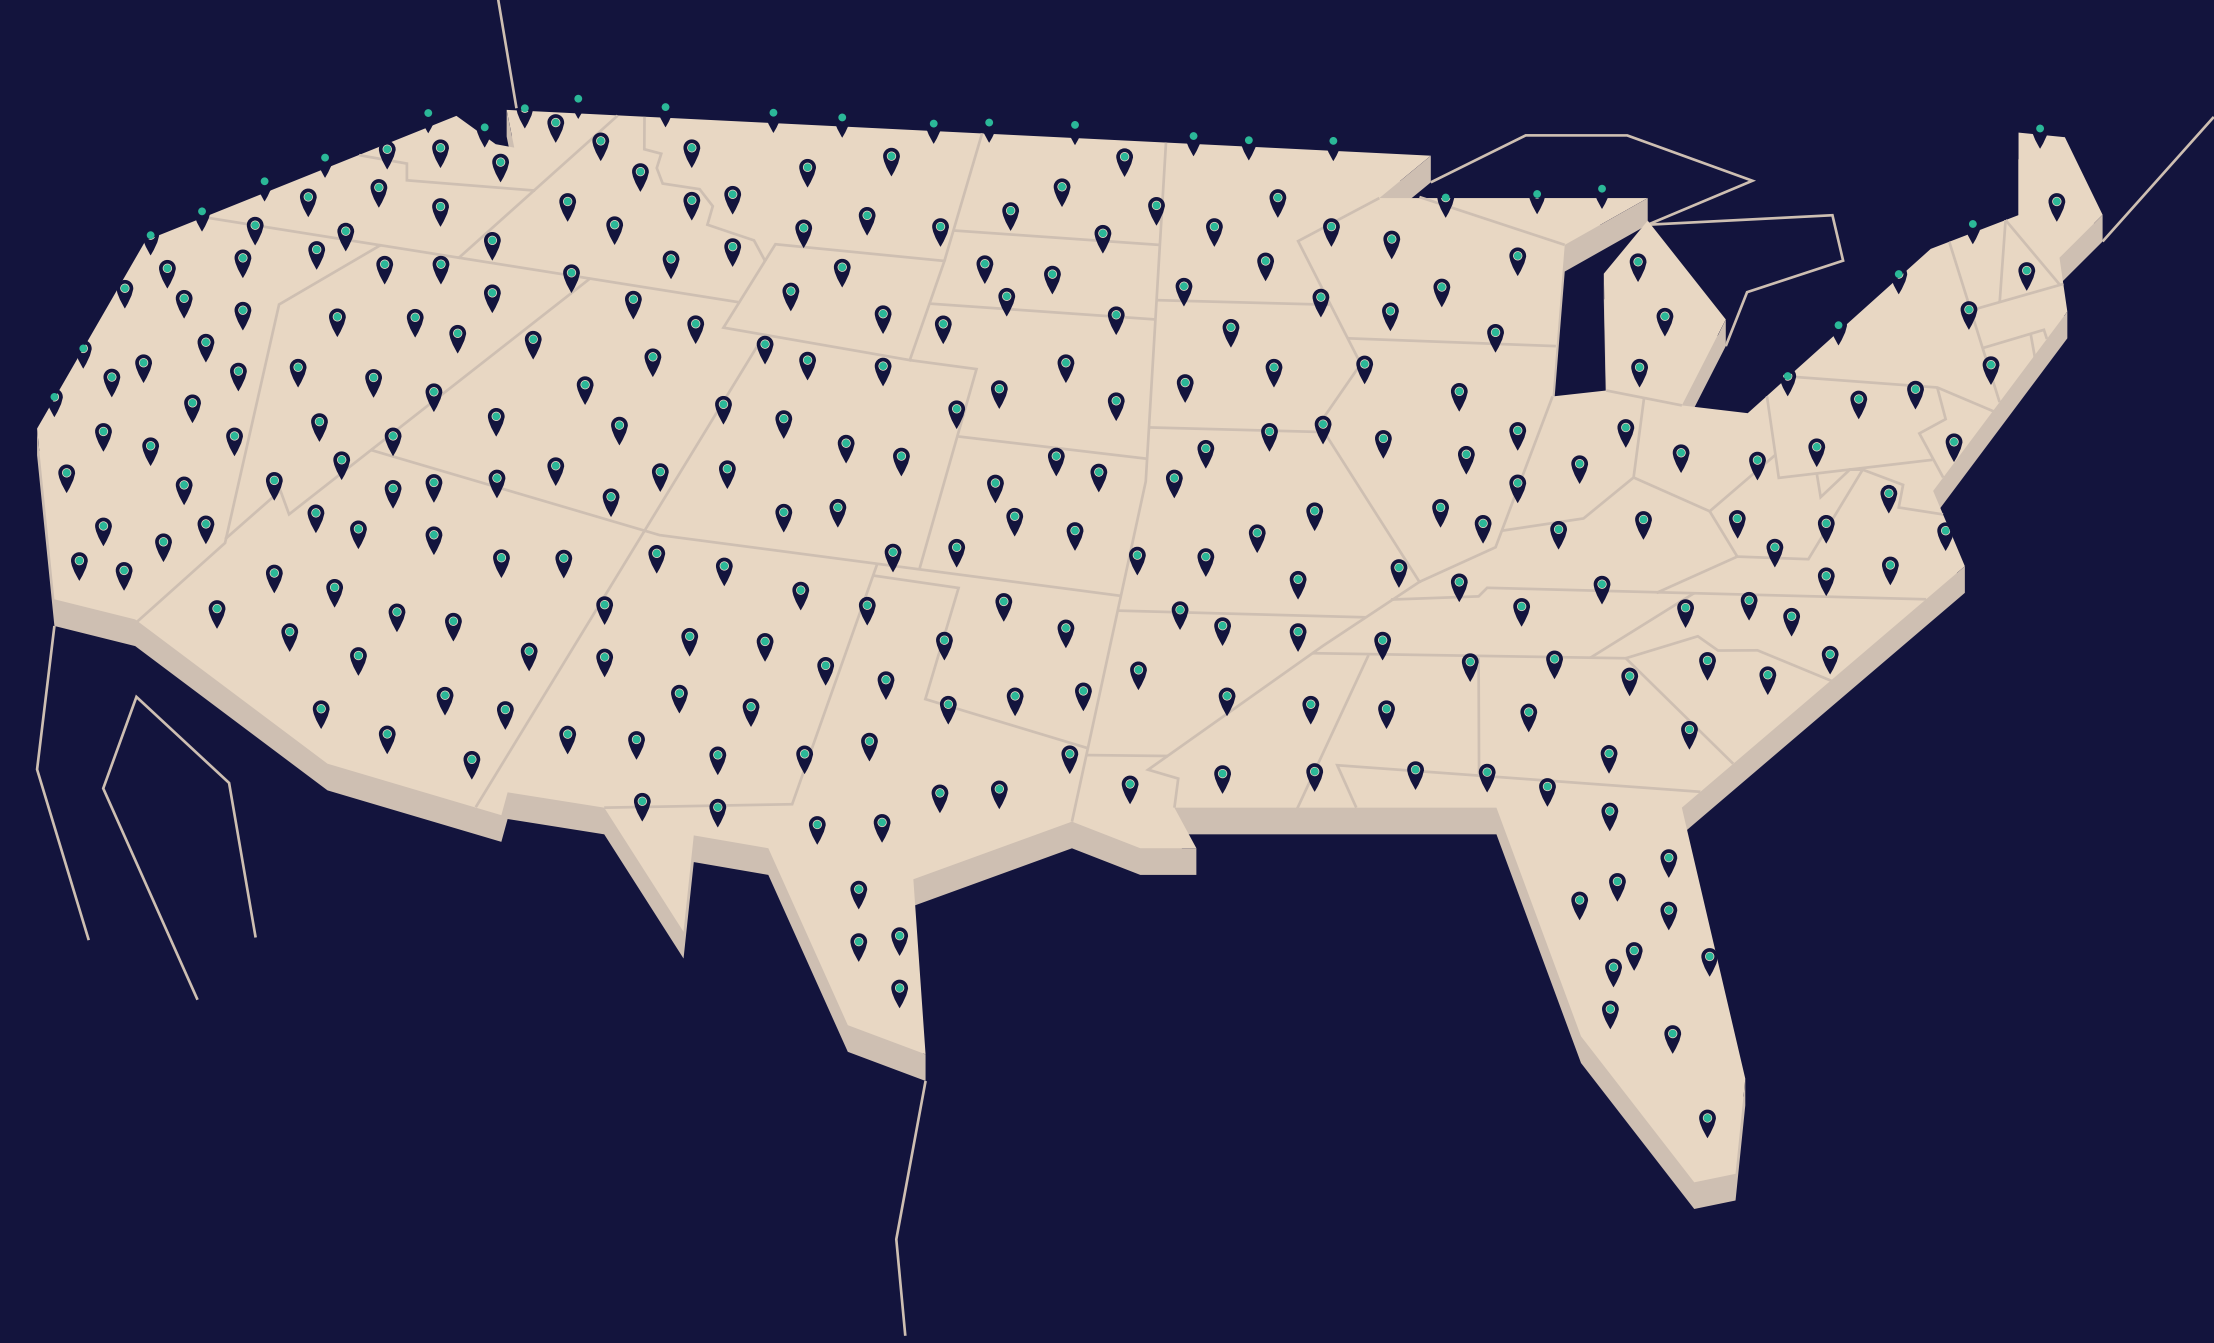

REBOX REDUCES GHG EMISSIONS BY **168,000** MTCO₂ A YEAR.

With REBOX energy consumed is **10 TIMES LESS** than that of the overall recycling process.

OPERATIONAL BENEFITS

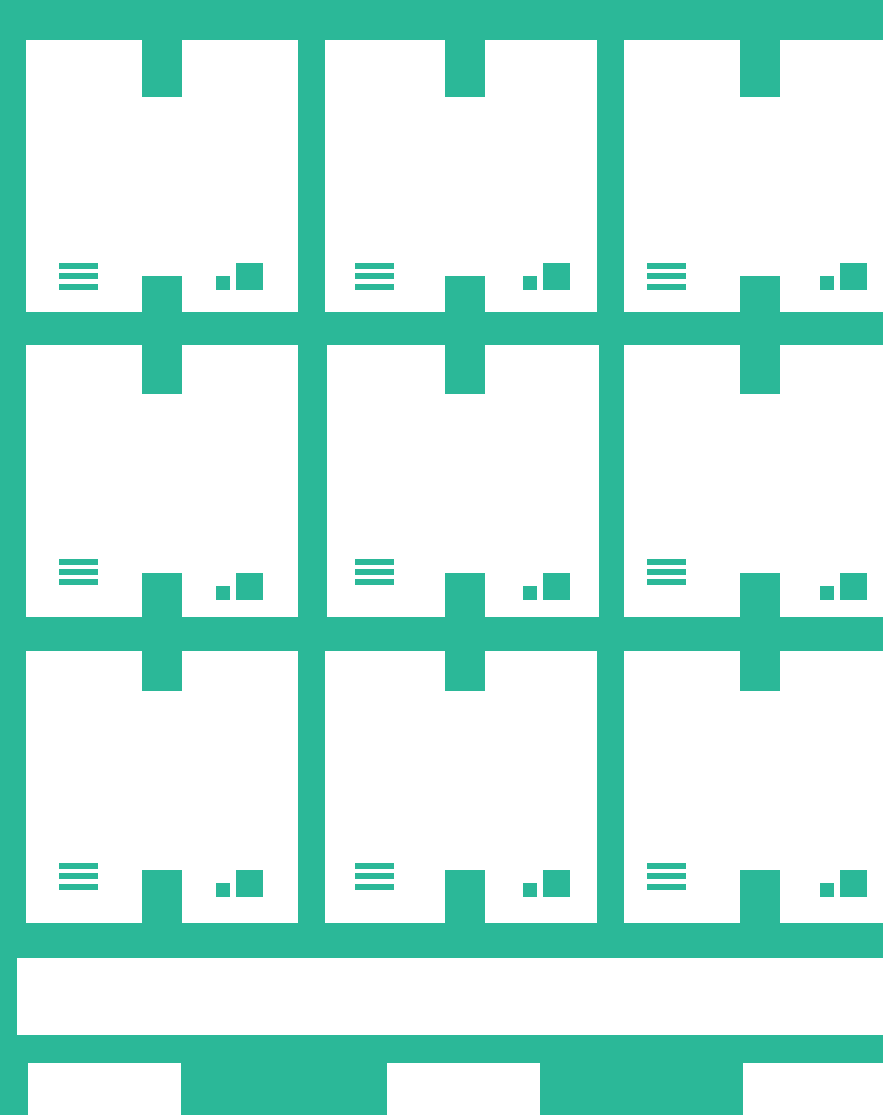

Currently, REBOX has **380 PARTNERS** across the **United States**.

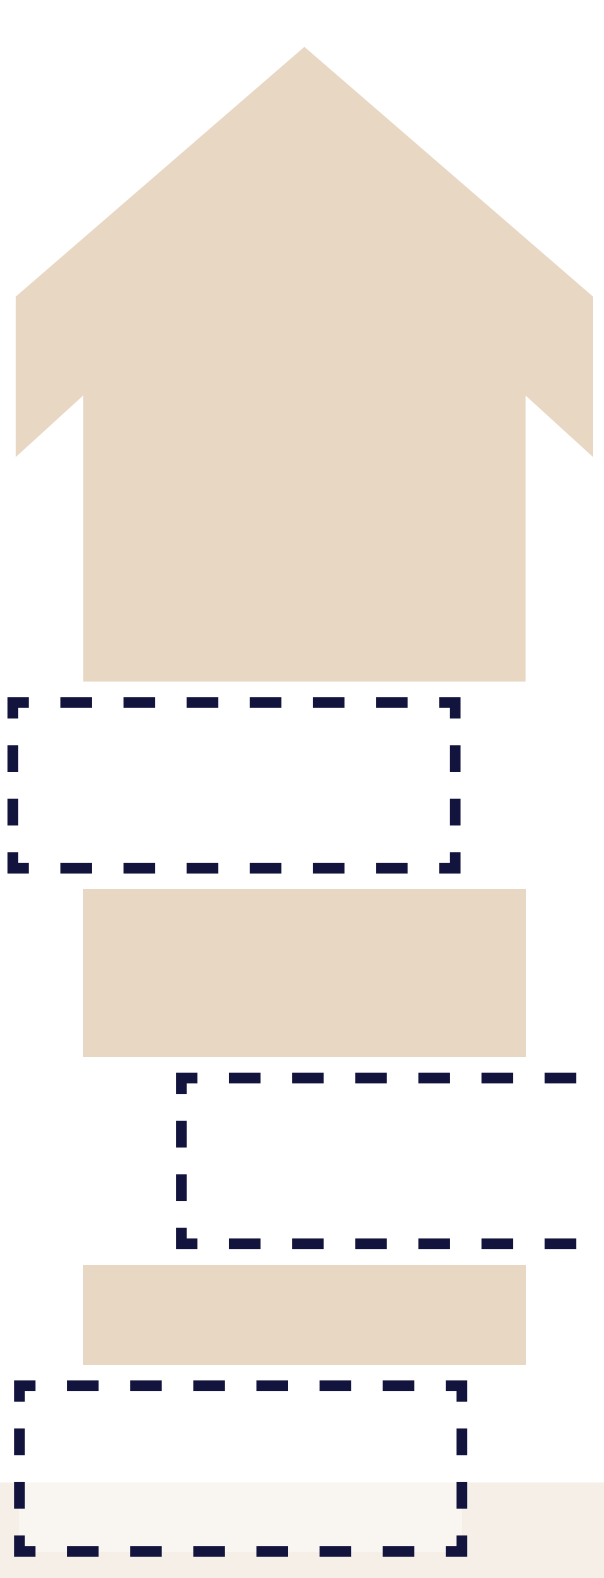

With REBOX, MANUFACTURING PLANTS can save up to

50

PALLET SPACES

on the floor.

With REBOX, MANUFACTURING PLANTS CAN ELIMINATE UP to **3** handling points in the waste disposal process for corrugate.

REBOX HAS THE CAPACITY to collect a

53 ft

dry van load of boxes **at a time.**

With REBOX, MANUFACTURING PLANTS CAN ELIMINATE the time spent on baling and compacting.

ECONOMIC BENEFITS

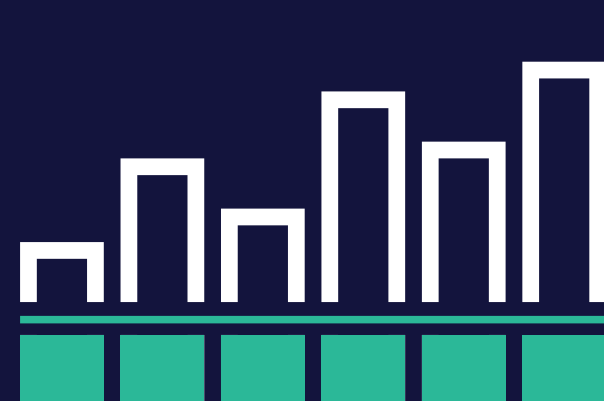

REBOX ALLOWS MANUFACTURING PLANTS TO

MAKE MORE

AND SPEND LESS.

REBOX offers its partners **30-40%** more money for their corrugate.

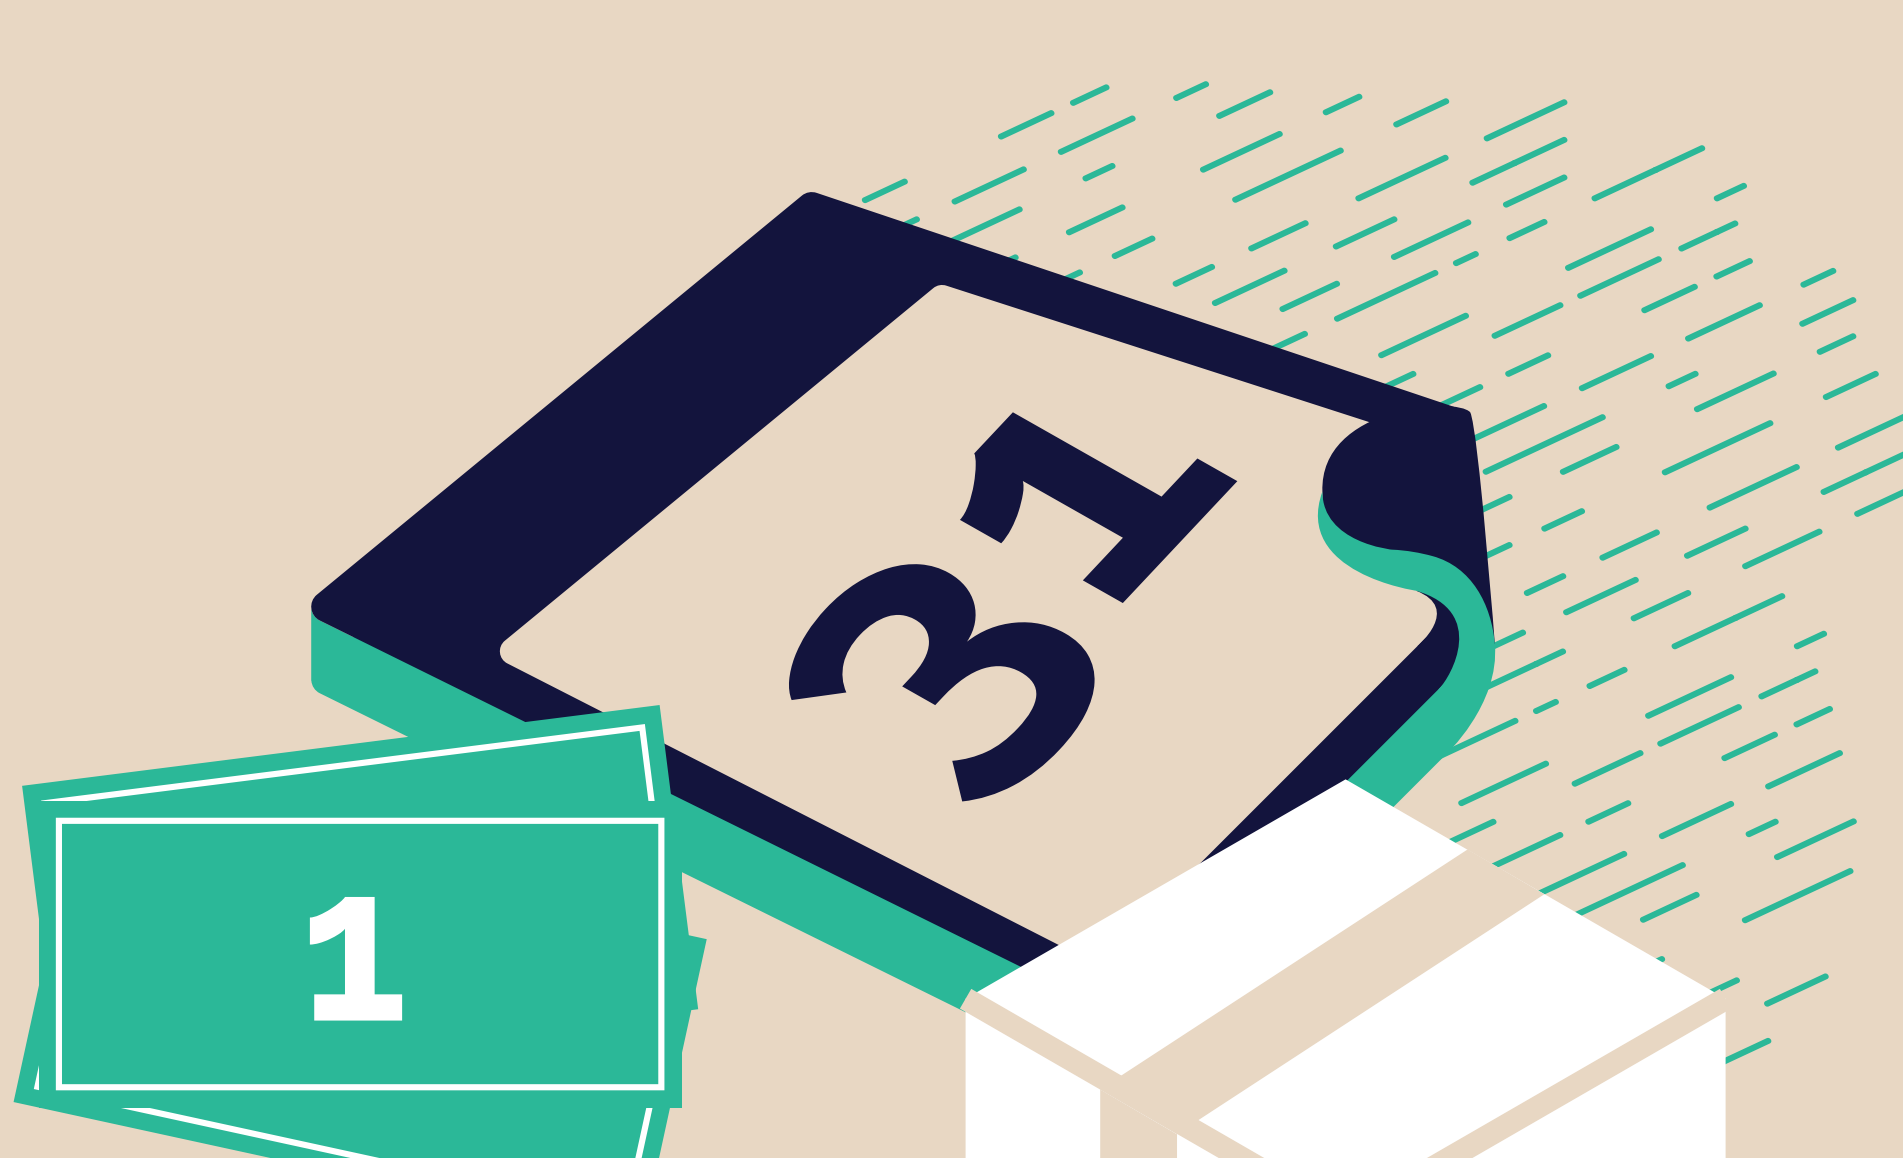

Despite fluctuating OCC rates, REBOX pays fixed rates,

ALWAYS.

By partnering with REBOX, MANUFACTURERS who previously used a **baling process** reported a

2 to 5 times increase in revenues.

REBOX employs a **'SAME MONTH'** PAYMENT PROCESS where partners get paid **within the same month** that their boxes **have been collected.**
